Privacy Policy for StockRabbit

Last updated: 2024-09-30

Introduction

The StockRabbit App integrates seamlessly with Shopify, providing merchants with a powerful tool for effective inventory management. By delivering real-time sales insights and forecasting capabilities, it simplifies the process of optimizing stock levels, saving time and reducing costs. With its intuitive interface and robust analytics, the app enhances the overall operational efficiency for merchants, enabling informed decision-making that drives sustained business growth.

Information Collection and Use

The StockRabbit App operates entirely within the Shopify ecosystem, utilizing the platform's capabilities to enhance user experience while ensuring privacy and security. It does not independently collect personal information; instead, it only accesses data essential for its functionality, as authorized by the merchant during installation. This includes shop name and email, which are used solely for service provision and support.

Shopify Data Access

Upon installation, the App is granted limited access to the merchant's Shopify account, including but not limited to:

- Read orders: To enable the App's features on store orders.
- Read products: To enable the App's features on store products.

This access is strictly for the App's operational purposes and not for collecting, storing, or analyzing personal data beyond what Shopify provides.

No Cookies or Tracking

The App does not employ cookies, tracking pixels, or any other data collection mechanisms on the merchant's site. All functionalities are designed to respect the privacy of the store's visitors, focusing solely on providing the advertised service.

Changes to This Privacy Policy

We reserve the right to modify this privacy policy at any time, so please review it frequently. Changes and clarifications will take effect immediately upon their posting on the website. If we make material changes to this policy, we will notify you here that it has been updated.

Contact Us

For more information about our privacy practices, if you have questions, or if you would like to make a complaint, please contact us by email (marcin@brzezinski.net) or through our support channel provided within the App's documentation or installation page.
